

## From SimAgri to Pro Farm Manager

Hello,

SimAgri has just begun its 50<sup>th</sup> game season, with over 11 years of experience. To celebrate this special event, our team is proud to announce the official launch of a new video game - **Pro Farm Manager**.

This new game was first conceived just over a year ago, and inspired by SimAgri. As a player you will be managing your own virtual/3D farm! The game will be available for the PC from spring 2017.

### Introduction to the Pro Farm Manager :

-Two game modes to choose from :

-Single player – playing alone. You can accelerate/fast forward time in this mode

-Multiplayer – Interaction with and help from other players online while working on the farm, buying and selling equipment and livestock, achieving goals/missions

-A more 500 hectare land (approximately 1200 acres) on which you can build and create your own unique farm: placing roads, buildings and vegetation where you want them

-Animated actions (farm working, trips, harvesting, etc) and animals

-Various types of climate and landscaping, as well as weather effects (sun, rain, wind, snow, night etc)

-5 different types of farm animals to choose from, cattle, pigs, goats, sheep, poultry for eggs and meat production, as well as genetics and breeding stock

-15 different crops and silage, straw and hay

-Over a 100 different types of farm equipment which can be customised.

-5 countries to discover, in French and English

## And what about SimAgri?

SimAgri will remain, **Pro Farm Manager** is just the next step forward in the gaming world, not a replacement. SimAgri will continue to grow and expand as it has always done for the past 10 years.

## One last word...

**Pro Farm Manager** development process began a few weeks ago. We will keep you informed, as it progresses, with pictures, videos, contents, etc... You can also go on the **Pro Farm Manager** website, and follow our updates on social media ([Facebook](#), [Google+](#) and [Twitter](#)).
