# SIMAGRI WEEKLY COMMUNIQUE

SEASON 21  
DECEMBER  
N°75

## CROPS

Sowing :

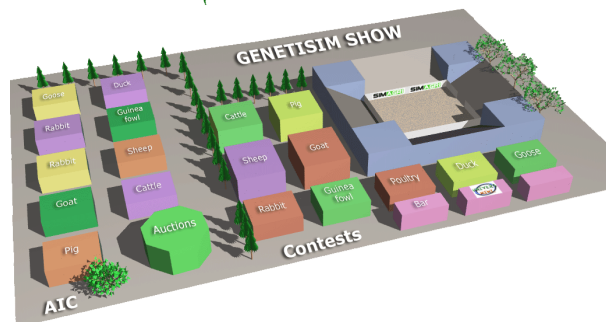

Faba bean

Harvest :

None

## GENETISIM SHOW

-Also, the national GenetiSim Show is taking place this week. The best animals at national level will be rewarded. All the animals presented during these national contests can be auctioned on Sunday. And last but not least, AICs can buy and sell doses from each other.

Good luck to you all ,

## ANIMALS

Sheltered :

All species but buffalos

Free range :

Buffalos (buffalo ration),  
meat cattle and sheep  
(winter ration).

The cold season is here,  
don't forget to feed  
animals you leave  
outdoors with buffalo or  
winter rations.

## SIMAGRI NEWS

-A new vegetable is now available for market gardening, the broccoli. More vegetables will be available in the future.

This week, we are developing and making changes about the crop programs.

## GOOD TO KNOW

-We'd like to remind you that starting next week, colza/canola and sunflower won't be used anymore in animal rations. Starting 1st January 22, you will have to use colza cake or sunflower cake in your animal rations.

## COOPÉRATIVE GOODS PRICING

As we announced in the previous Bulletin, we will introduce a new program concerning variations in goods pricing, it'll start 1st January 22. At this point the program will take into account 6 elements and calculate price variations.

- Available stock in Regional Agricultural Cooperatives (stock variations day after day)
- Available stock at farmers (stock variations day after day)
- Purchases/Sales comparison ( more or less goods bought or purchased)
- Purchases changes (more or less stuff purchased daily)
- Sales changes (more or less stuff sold daily)
- Amount of goods sold and purchased

The program will check daily those figures and will then give you the pricing for the day. Changes in price will be more important than they currently are.

## SIMAGRI CONTEST

-This **Sunday 8th of November 2009** a lottery draw will take place. The prizes will be 3 one year pass. Do not forget to sign up and good luck to you all !!!

**- INFO FOR THE ANNUAL SHOW CHEESE CONTESTS -**

If you plan to sign up your cheeses for the coming Annual Show contests, here are some important info and dates :

-There are 2 categories, "**Artisanal Cheese**" and "**Industrial Cheese**".

- This competition will reward the best cheese for each region/Province and this for each cheese.

- For cheeses produced at national level, there will be as many rewards as there are regions/provinces.

- Each farmer can exhibit only **a one kilo sample** per cheese. Of course he can exhibit samples of the different cheeses he produces.

- The sample must be optimally matured to be registered for the competition.

- The cheese Shelf Life (SL) must not be exceeded on the day of the competition.

- Samples brought for the exhibition are lost.Each farmer who wants to exhibit cheese has to pay subscription and registration rights :

**120 euros per sample exhibited**

- Sample deposit dates :

<b>Type of cheese</b>	<b>Sample deposit date</b>
Goat Cheese (GC)	7th February to 1st March 23:00 (server time)
Soft Ripened Mody Cheese (SRMC)	7th February to 2nd March 23:00 (server time)
Soft Rind Washed Cheese (SRWC)	7th February to 3rd March 23:00 (server time)
Blue Cheese (BC)	7th February to 4th March 23:00 (server time)
Pressed Uncooked Cheese (PUC)	7th February to 5th March 23:00 (server time)
Presse Cooked Cheese (PCC)	7th February to 6th March 23:00 (server time)

Keep these dates in mind if you want to sign your cheeses up for the contests. Be careful, your cheese samples Shelf Life is important too. Your cheese must be at its maximum maturation when you will sign it up.

You can already plan your production and maturation process to make sure your cheese will be ready for the contests.
