(winter ration).

The cold season is here, don't forget to feed animals you leave outdoors with buffalo or winter rations.

ANIMAL RELEASES : FRANCE 3 SERVER

The France 3 server is now running for a few months. So far animal releases (animals sold by SimAgri on the national market) were done with full stats, thus you had a chance to buy animals with one or more 70 stats. Starting **1st march 22**, the releases will offer animals with stats at 50 max.

COOPÉRATIVE GOODS PRICING

A new goods pricing program is in place since 1st January 22. This program takes into account 6 elements to fix pricing changes :

- Available stock in Regional Agricultural Cooperatives (stock variations day after day)
- Available stock at farmers (stock variations day after day)
- Purchases/Sales comparison (more or less goods bought or purchased)
- Purchases changes (more or less stuff purchased daily)
- Sales changes (more or less stuff sold daily)
- Amount of goods sold and purchased

The program will check daily those figures and will then give you the pricing for the day. Changes in price will be more important than they currently are.
