SIMAGRI NEWS

First of all, we would like to wish you a very good year 25.

To start this new year, we will add a few more options to the Regional Agricultural Cooperatives (RACs). Soon, it will be possible for the RACs to buy and sell (with players involvement). plants for market gardening and tobacco. It'll be also possible to change the capital and share repartition between partners. A few more things will be optimised and this will end the changes for the RACs.

Good game to you all,

EVENEMENT SPACE 2010

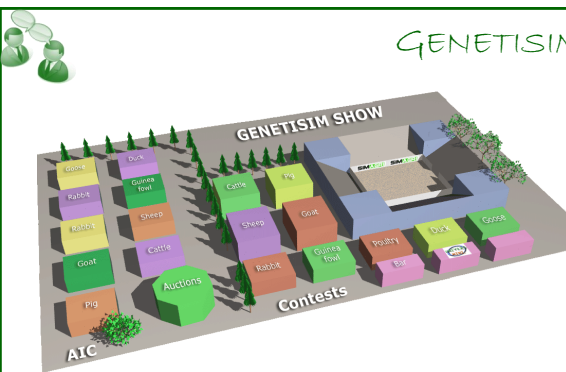

Like we did last year, SimAgri will be present at the SPACE 2010 (<http://space.fr>) in Rennes from the **14th until the 17th of september.**

During these 4 days, you will have the opportunity meet the SimAgri Team at the **open air stall P8** (near door D, same spot than last year). There we will have computers with free access and surprises for those of you who will come and visit us.

Agricultural miniatures will also be sold there by UniversMini (<http://www.universmini.com>).

GENETISIM SHOW

The sixth GenetiSim just ended and many of you presented animals to the contests. Many of you too have been rewarded both on regional and national contests. Moreover many animals have been sold during the auctions and it's a sign that the genetics of these animals was of good standard.
