SIMAGRI NEWS

Regional cooperatives can now sign contracts with plant (tobacco and market gardening) producers and sell them back to farmers through their self service shop. From now on, farmers wishing to start market gardening can grow their plants themselves or buy them from a RAC.

This week, we will work on a few improvements suggested by players during the SPACE 2010.

Good game to you all,

EVENT : SPACE 2010

Last week, from the 14th until the 17th of september took place the SPACE, in Rennes (France).

During those 4 days many of you came and paid us a visit on the SimAgri stall for a bit of fun, talk about the game, suggest new things or possible improvements and we want to thank you about that. Some suggestions will be implemented during the year 2010 and some throughout the year 2011.

ENSURE YOUR SIMAGRI ACCOUNT IS SAFE

We'd like to remind you that noone is supposed to ask you your password. **If a player, a moderator or an administrator asks you for your password, you do not have to give it whatever the reason given.** If you receive a message asking for your password or access to your farm, do not answer and report it to SimAgri as soon as possible :

[Report to a SimAgri team member](#)

We'd like to remind you also that access to your farm MUST BE made from the SimAgri page :

<http://www.simagri.com>

You will then access a page like this :

- <http://france1.simagri.com/index.php>
- <http://france2.simagri.com/index.php>
- <http://france3.simagri.com/index.php>
- <http://belgique1.simagri.com/index.php>
- <http://suisse1.simagri.com/index.php>
- <http://canada1.simagri.com/index.php>
- <http://usa1.simagri.com/index.php>

There you can enter your username and password.

Never enter your username or password on a page whose adress is not belonging to <http://www.simagri.com>.

Now about your password, please mix letters and digits and never save it on the computer you're using especially public computers.
