REGIONAL CONTESTS QUALIFY FOR NATIONAL CONTESTS

Levels:

Depending on your SimAgri seniority, you will join either Expert or Novice level. There will be two separate rankings.

Expert level :

A player will be at this level if he has been playing for 505 or more days, that means a minimum of 6 SimAgri years. Elder players will compete at this level.

Novice level :

A player will be at this level if he has been playing from 0 to 504 days, that means a maximum of 6 SimAgri years. If a player gets more than 504 days during the contests, he will stay at the same level.

Signing up animals : July/Aug

WARNING, only animals born in your farm, adults and named can be signed up for the contests. You can sign up only 3 males and 3 females per breed and per category/stat.

A change with the former contests, an animal already signed up for a contest, being rewarded or not can be signed up the following year in the same contest or a different one. It can thus get an award this year and get a second one next in the same category or a different one as you choose.

Once the animal subscription is made it cannot be sold anymore. You'll have to wait til the end of the contests.

Species	Subscription price in euros per animal
Cattle	150
Buffalo	Do not compete
Goat	50
Pig	50
Rabbit	25
Poultry	25
Guinea fowl	25
Sheep	50
Geese	25
Duck	25
Horse/pony	150

Category / Stat :

Spécies	Category / Stat

Contest preparation (regional and national) : Sept/Nov

In September and November, you can prepare your animals for the regional and national contests. That will increase your chance during the contest. By preparing your animals you will increase their "contest" stat. This stat remains hidden but the better the preparation, the better the "contest" stat.

Preparing animals costs time thus every prepared animal will cost 0.25 APs/day.

Contests set up : Oct/Dec

Everyday there will be one or more contests. The first 3 ranking animals in each contests will be rewarded. Those 3 rewarded animals in regional contests will qualify for national contests. Several parameters are taken into account :

- Category stat ("growth" for example)
- Contest stat (hidden stat due to contest preparation)
- Feeding gauge(from the animal sheet)
- Watering gauge (from the animal sheet)
- Board grade (depends on the animal stat value)

The animal stat is worth 80% of the overall grade.

Species	Regional Contests dates	National Contests dates
Cattle	7 October	5 December
Buffalo	Do not compete	Do not compete
Goat	2 october	2 December
Pig	4 october	4 December
Rabbit	5 October	4 December
Poultry	1 October	1 December
Guinea fowl	1 October	1 December
Sheep	6 October	2 December
Geese	3 October	3 December
Duck	3 October	3 December
Pony	5 October	5 December
Draft horse	6 October	5 December
Riding horse	7 October	5 December

Auctions : December

Auctions will take place on the 7th of december. Before the auction, you can register the animals you wanna sell during the 6 days before (1st to 6th of december).

Auction registration :

Any animal qualified for the national contests, being rewarded or not during the national contests can be registered to the auction. Auction registration are free.

Auction time table :

Auctions take place on the 7th of decemeber (server time), from 09:00 until 21:00. Animals will be auctionned randomly in 3 auctions, from 09:00 to 13:00, 13:00 to 17:00 and 17:00 to 21:00. The player with the highest bid at the end of the auction will of course win the auction. The seller gain will be the base price of the animal plus a percentage of the bid.

Cups and rewards :

Each rewarded animal (in the top 3 of each category) in both regional and national contests will get a cup that will show on its sheet.

Each rewarded animal will also gain a reward in cash :

Species	Regional GenetiSim (in euros)			National GenetiSim (in euros)		
	1er	2ème	3ème	1er	2ème	3ème
