SIMAGRI NEWS

For a few days now, miscanthus is available in game thus you can start sowing this week. Once started you can harvest it once a year from the 2nd year until the 20th after sowing. Of course you can put your plot to fallow whenever you want to.

As mentioned before, this week we will work on improving Regional Agricultural Cooperatives (RACs). In a few weeks from now, it will be possible to open a self service shop to sell seeds, fertilisers, equipment etc...

Good game to all,

SIMAGRI AGRICULTURAL SHOW

This week took place the 22th SimAgri Annual Show. For this new edition we added no new manufacturer but some new models, they are now available in outlets.

Concerning the auctions, there has been a lot of sold models, including some at rather high prices.

Finally, the traditional cheese Contests have rewarded the best farmers for their productions. They will thus be able to sell their cheese to higher prices until the next Show.

We'll see you in a season for the 22th Edition of the Agricultural SimAgri Show.

GOOD TO KNOW : BIO FUEL (VBF)

Depending on the equipment used, you will use Vegetal Bio Fuel (VBF). In SimAgri the VBF is produced and sold (from 0.36 to 0.55 euro/litre) by Agricultural Cooperatives. You can also buy VBF to SimAgri Cooperative but the price will be slightly higher (0.60 euro/litre). Without this bio fuel, you will not be able to use motorised equipment. So you have to buy VBF to AC or SimAgri Cooperative and fill your VBF tank.

Once your VBF tank is full, you'll be able to use your motorised equipment. You can then fill your equipment tanks. To simplify fuel management, there is but one global tank for all your motorised equipment (to avoid filling 20 tanks if you have 20 tractors for example). A fuel gauge will give you your tank filling level.

Then, every time you use a motorised equipment (journey and action taken in a plot or in the farm) the VBF used is taken directly from the global tank. Once emptied, you'll have to refill it.

SIMAGRI CONTEST

-This sunday, the 23th of may 2010, will take place the SimAgri Contest's lottery to win a T-Shirt. Don't forget to sign up. Good luck to you all !
