**SimAgri NEWS**

We keep on developing the viticulture activity. As the developing is quite long and difficult, we will release it with a simplified version of its commercial aspect. It will be possible to sell wine only to SimAgri (later on, on the markets from the estate or through a salesman ). This activity will be available in a few weeks.

Good game to you all,

**SimAgri WEEKLY COMMUNIQUE**
If you plan to sign up your cheeses for the coming Annual Show contests, here are some important info and dates:

- There are 2 categories, "Artisanal Cheese" and "Industrial Cheese".
- This competition will reward the best cheese for each region/Province and this for each cheese.
- For cheeses produced at national level, there will be as many rewards as there are regions/provinces.
- Each farmer can exhibit only a one kilo sample per cheese. Of course he can exhibit samples of the different cheeses he produces.
- The sample must be optimally matured to be registred for the competition.
- The cheese Shelf Life (SL) must not be exceeded on the day of the competition.
- Samples brought for the exhibition are lost. Each farmer who wants to exhibit cheese has to pay subscription and registration rights:

  **120 euros per sample exhibited**
